

Valley Falls Police Department

Marcus F. Koch – Chief of Police

City Council Meeting – 03.03.2021

The On-line Reporting system has been completed.

The fliers are now going to be distributed to every residence and posted throughout town.

The QR symbol method will get people directly to the on-line reporting form which includes the ability to submit videos, photographs and documents.

The QR symbol has also been added to the backs of our business cards. (Thanks to April for helping with printing the labels and thanks to Paul for his work in getting this all accomplished.)

Yesterday afternoon and again tomorrow afternoon, the Jefferson County Sheriff's Deputy School Resource Officer and I are giving presentations to seventh-graders at the school on the topic of "cyber safety and cyber crimes". School administrators asked us help the students understand the benefits and the problems created by our digital age - including the potential consequences related to the inappropriate or criminal use of phones, computers and other devices. Rather than a lecture, we have it set up to be a discussion and are soliciting the input from the students to better understand the dilemmas the kids face with this technology.

- Distribute February 2021 Activity Report
